About Us

Nolengka Farm Pty Ltd, founded by Mrs. Kanego Sandra Thamane in Limpopo, is a 100% black female specializes in agro-processing medicinal products from *Mansonia augustifolia* and *Aloe ferox*. Established in 2019, it offers agricultural services and job opportunities, particularly for agricultural economics students, and participates in government empowerment initiatives. With a background in social development, Mrs. Thamane utilizes her family's 3,000 hectares and has a Level 3 Mix Farming Certificate while pursuing an agricultural science degree at UNISA. The farm currently employs ten workers and provides training opportunities.

Company Philosophy

At Nolengka Farm, we are dedicated to empowering communities through sustainable agro-processing of medicinal plants. We prioritize creating opportunities for growth, education, and economic development, especially for women and students, while actively participating in empowerment initiatives.

Mission statement & impact

Mission Statement

our mission is to empower communities by sustainably processing medicinal plants. We are committed to fostering growth, education, and economic development, with a special focus on supporting women and students, while actively engaging in empowerment initiatives.

Social & Economical Impact

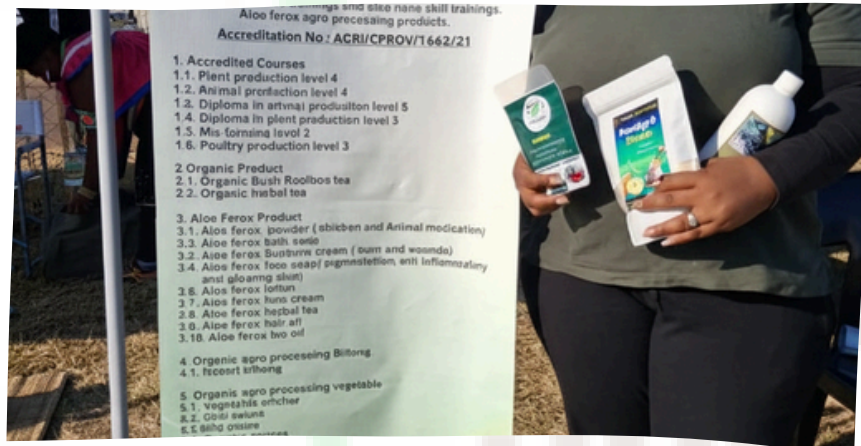

Creating jobs stimulates local economies and supports fair trade, contributing to organic industry growth and generating revenue for community stability. It promotes holistic wellness by improving health outcomes and empowering customers with natural solutions, fostering a culture of wellness and enhancing overall quality of life.

Eviromental Impact

Support sustainable sourcing to reduce carbon footprints, conserve resources, promote eco-friendly practices, and preserve biodiversity, contributing to a healthier planet. It also creates jobs and stimulates local economies.
