

ORGANIC FARMING: GROWING NATURALLY

Fresh, healthy, and no harmful chemical

Organic farming nurtures the soil, protects biodiversity, and provides better food for all. Support sustainable agriculture for a greener future!

NOLENGKA Enterprises, a part of NOLENGKA FARM PTY LTD, supports farmers and various sectors, including government and education. The company aims to establish a skill development center in 2-5 years to create job opportunities for inexperienced agricultural professionals. As the leading female farmer, I focus on agro-processing, animal breeding, crop farming, and training, empowering youth and women in agribusiness, promoting sustainable agriculture, reducing food waste, and contributing to national health with organic products.
